

# Comments

- There is an area where the ice is shown black at the feature A of the Sentinel-1 zoom image. It is on the path of the snowmobiles to the ice camp.
- There are many new images today. There is AMSR2 data, a MODIS image, a Landsat image, a Sentinel-1 image and an ice chart.

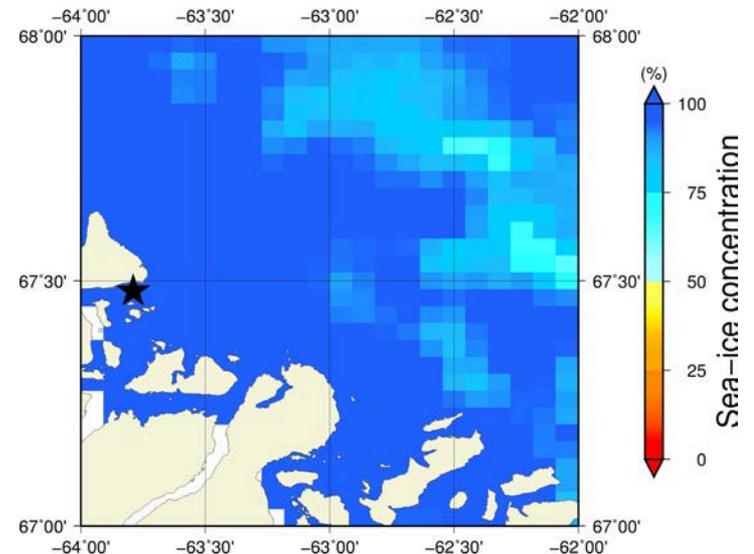

# April 20<sup>th</sup> (AMSR2) Sea - ice concentration in the region 66° to 69°N and -66° to -60°E
