- I would recommend downloading S1-2016-07-02-69-60-100.tif (119 MB) at <http://gliders.takuvik.ulaval.ca/ice/S12> or subset\_G500\_of\_S1-2016-07-02-69-60-100.tif (2 MB) or subset\_gliders\_of\_S1-2016-07-02-69-60-100.tif (20 MB) at <https://goo.gl/SwM77o>.
- If these images with 100 m resolution are too big to download on the ship, I would recommend downloading the images with 500 m resolution instead: S1-2016-07-02-71-65-500.tif (46 MB) at <http://gliders.takuvik.ulaval.ca/ice/S12> or subset\_G500\_of\_S1-2016-07-02-71-65-500.tif (0 MB) or subset\_gliders\_of\_S1-2016-07-02-71-65-500.tif (1 MB) at <https://goo.gl/SwM77o>.
